DIRECTOR'S MESSAGE

ELEVATING OUR SERVICE STANDARDS

As we navigate our industry's evolving landscape, our commitment to excellence remains unwavering. Our reputation as a torque solutions leader is built upon exceptional service, setting us apart in the field.

The dedication and hard work of each team member are paramount to our success. Your commitment to quality and customer satisfaction drives our achievements.

In the coming months, we're focused on elevating our service standards. This means exceeding customer expectations at every turn, whether through timely responses, innovative solutions, or unwavering support.

Our service profile reflects our organizational values: integrity, reliability, and a relentless pursuit of excellence. These values guide us as we set new standards and redefine exceptional service.

Together, we'll continue to rise to the challenge and emerge stronger than before. By supporting one another and prioritizing our customers' needs, there's no limit to what we can achieve.

Rajendra Kumar Pathak
Managing Director
BOLTORQ INFRACON PVT LTD

ABOUT OUR COMPANY

A BRIEF STORY ABOUT THE COMPANY

Since its establishment in 2014, BOLTORQ INFRACON PVT LTD has rapidly ascended to the forefront of bolt-tightening equipment manufacturing and marketing, offering comprehensive bolted joint solutions to clients across multiple sectors. Our commitment to quality, coupled with a relentless pursuit of innovation, has propelled us to become a trusted partner for projects and shutdowns worldwide. From oil refineries to power generation plants, our products are relied upon in industries spanning the globe, underscoring our dedication to excellence and customer satisfaction. With a focus on continual improvement and a supportive environment for growth, BOLTORQ stands as a symbol of accuracy, perfection, and innovation, poised to shape the future of precision engineering on a global scale.

**BRINGING IDEAS AND INNOVATION
TO LIFE THROUGH TECHNOLOGY**

VISION

To be the fastest-growing firm, prioritizing customer satisfaction, sustainable growth, and solid management, while delivering quality services, operational excellence, and nurturing human potential through our core values.

MISSION

- 01** At BOLTORQ INFRACON PVT LTD, we're committed to boosting your company's efficiency with top-quality services, delivered promptly and with care, ensuring your needs are met precisely.
- 02** We set industry standards with innovative solutions, fostering creativity to empower peak performance in our workforce, driving mutual success.
- 03** Through our unwavering commitment to excellence and innovation, we aim to be more than just a supplier; we aspire to be your trusted partner in achieving your goals and exceeding expectations every step of the way.

KEY FACTORS

INNOVATION

At BOLTORQ INFRACON PVT LTD, innovation merges precision engineering with customer needs, optimizing efficiency in bolting and correction data with advanced technology and tailored solutions, empowering industries for peak performance.

INFRASTRUCTURE

BOLTORQ INFRACON PVT LTD boasts a robust infrastructure, meticulously designed for reliability and efficiency, supporting our innovation and precision engineering with state-of-the-art facilities and agile supply chains to meet evolving client needs worldwide.

CREATIVITY

Creativity thrives at BOLTORQ INFRACON PVT LTD, inspiring innovation across our operations. From product design to problem-solving, we foster a culture that encourages fresh thinking and novel solutions, driving excellence in everything we do.

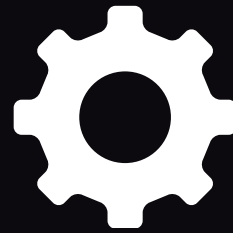

WHAT WE DO

A BRIEF STORY ABOUT THE WORKING

We offer Bolt Torquing, Bolt Tightening, Tensioning, Erection, Fabrication, Line Boring, and Beveling services. Our certified technicians use precision equipment to ensure secure connections, reliable structures, and optimal machinery performance, providing comprehensive maintenance solutions with professionalism and expertise.

BRINGING IDEAS & INNOVATION
TO LIFE THROUGH TECHNOLOGY

CREATIVE TEAM

Our stable infrastructure relies on a dedicated team of experts, carefully chosen for their skills and experience. Comprising engineers, technicians, and support staff, they work diligently to design and manufacture compliant products tailored to our clients' needs.

OUR INFRASTRUCTURE

Our modern infrastructure, equipped with necessary machinery, spans divisions including production, quality testing, R&D, sales & marketing, and logistics, ensuring maximum utilization and diverse product specifications.

OUR PORTFOLIO

MG SETU OVER GANGA RIVER, PATNA (BIHAR) SEP 19 - AUG 22

The assembly and erection of a permanent truss for the replacement of the superstructure of an existing 5.575 km long bridge over the Ganga River on NH-19 in Patna, Bihar, is completed. Spanning from Km 212.72 to Km 218.295, this project involves meticulous planning and execution to ensure the seamless integration of the new truss. Having been completed, it has enhanced the structural integrity and safety of the bridge, facilitating smoother transportation along this vital route in Bihar.

BRINGING IDEAS & INNOVATION
TO LIFE THROUGH TECHNOLOGY

OUR PORTFOLIO

OWG GIRDER/STEEL SPAN, DHRANGADHRA (GUJARAT) DEC 22 - AUG 23

The OWG girder/steelwork for the assembly, erection, and launching of spans has been successfully completed at the L&T Virangam site in Dhrangdhara, Gujarat. This project involved precise engineering and construction techniques to facilitate the smooth and safe installation of the girders for bridge construction. Its completion contributes to the development of infrastructure in the region, enhancing connectivity and accessibility for the communities served by this vital transportation link.

BRINGING IDEAS & INNOVATION
TO LIFE THROUGH TECHNOLOGY

OUR PORTFOLIO

BAIRABI-SAIRANG PROJECT, SAIRANG (MIZORAM) DEC 22 - AUG 23

Supply, fabrication, assembling, and erection of composite girders for nine major bridges with a total of 55 spans are underway between stations Hortoki and Sairang, as part of the construction of the new BG Railway line from Bairabi to Sairang in Mizoram. These spans include various lengths, ranging from 18.3m to 30.5m, and involve tasks such as metalizing of members, fitting and fixing of bearings, painting, concreting of deck slabs, fixing of pathways, inspection ladders, and other ancillary works.

BRINGING IDEAS & INNOVATION
TO LIFE THROUGH TECHNOLOGY

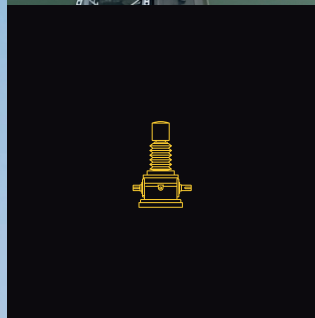

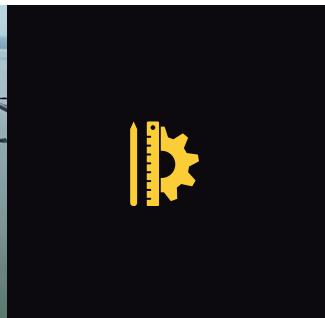

OUR PORTFOLIO

WDFCC - FINAL ASSEMBLY OF STEEL TRUSS, VADODARA (GUJARAT) JAN 24 - FEB 24

The assembly process included the construction of the gallery and the final assembly of the steel truss using bolted joints. This meticulous procedure ensured the structural integrity and stability of the truss system. Each bolted joint was carefully secured, contributing to the overall strength and durability of the structure. The assembled steel truss now serves as a vital component, supporting the functionality and safety of the infrastructure project.

ONGOING PROJECTS

DIMAPUR SITE NFR, DIMAPUR (NAGALAND) NOV 23 - PRESENT

The assembly, erection/launching, and HSFG bolting, along with completion in all respects, of 3 spans measuring 61.0m each and 7 spans measuring 76.2m each of open web girders are underway at Dimapur in Nagaland as part of the N.F. Railway Projects. This complex operation involves the utilization of a cantilever gadget for precise positioning and installation of the girders. Once completed, these girders will play a crucial role in enhancing railway infrastructure, facilitating smoother transportation, and connectivity in the region.
